Carpet Cleaning

Hot Water Extraction: This is the most effective method for cleaning the majority of carpets. A hot cleaning solution is sprayed on to the carpet and almost immediately extracted, taking the dissolved dirt & grit with it into a recovery tank. Depending on the type of soiling and stains, different pre-spray and spotters are used to loosen the dirt. We use top of range Machine

Professional Oven cleaning

We clean all types of Ovens, Cookers, Grills, Hobs, and Extractors. Bulbs & filters replaced where required.

We use safe products only. Non-toxic, Non-caustic, No mess, No unpleasant smell.

***We can also provide outside window cleaning.**
